## WORK EXPERIENCE

### Amazon, Inc. | UX Designer

November 2021 - Present

Designed the Seller Central support experience across self-service tools and internal dashboards, leading the evolution toward conversational AI assistants for **both sellers and associates** to resolve issues accurately and efficiently — with work that:

- Defined interaction guidelines across three AI tiers — **AI-assisted features, conversational patterns, and agentic experiences** — to build user trust and drive adoption of AI-powered workflows.
- Integrated AI prototyping into the design process, accelerating concept exploration and handoff by 2x; upskilled 10+ PMs with AI tooling and established a new design review process.
- Synthesized usability testing findings, usage data, and stakeholder feedback into user insights that steered product roadmaps (~\$3.3M in annual savings, reflecting direct influence on product prioritization).
- Eliminated **21K+** weekly manual contacts, driving **~\$8.7M** in annualized operational savings.
- Secured **VP-level buy-in** across 3+ product verticals for self-service adoption strategies.

### ADP, Inc. | UX Designer

July 2018 - October 2021

Designed dashboards and complex data tables for enterprise practitioners to manage time tracking, pay calculation, corrections, payroll processing, and benefits — contributing to up to **20% reduction** in support calls for measured features.

## ADDITIONAL EXPERIENCE

### Founder & Creator | Fashion & Consumer Insight

October 2021 - Present

Built a personal fashion channel helping everyday consumers find quality clothing at reasonable prices, growing to **48K+ followers** by identifying content-market fit through underserved niches.

Validated and iterated content through key video metrics, scaling reach via organic growth and advertising campaign management.

## EDUCATION

### Georgia Institute of Technology

Human Computer Interaction, M.S.

Aug. 2016 - May 2018

### Sichuan University

Industrial Design, B.E.

Sept. 2010 - June 2015

## SKILLS

### AI Prototyping & Tooling

Builder.io, VScode, Kiro, Claude design, Figma AI, Claude Code, HTML, CSS, JavaScript

### Design

Figma, Axure, Sketch, Adobe suites, Design Systems, Information Architecture

### Research

Behavioral analytics, User journey mapping, Usability testing, User Persona, Data-informed decision making

### AI & Emerging Tech

Agentic interaction patterns · Conversational UX · Human-in-the-Loop (HITL) · Building trust with AI

### Video production & editing

After Effects, Final Cut Pro, SeeDance, Kling AI
